INTRODUCTION

DJ Maino Da Plug is an underground music curator, tour DJ, livestream host, and cultural tastemaker deeply embedded within the rap and rage music scenes. Known for his authentic personality, sharp ear for emerging talent, and ability to create genuine artist-driven moments, Maino has become a respected bridge between underground culture and the next wave of breakout artists.

Operating out of Chief Keef's iconic Glo Shop, Maino hosts a growing Twitch livestream platform where independent and signed artists alike come together to share music, tell stories, joke freely, and connect directly with fans in real time. His streams have quickly become a trusted space within the underground community blending music discovery, live commentary, artist interviews, and unfiltered conversation into a format that resonates with today's internet-driven rap audience.

As the official DJ for BearlBoss and a close collaborator of UnoTheActivist, Maino has played a major role in helping amplify the rage, plugg, and alternative underground sound across both digital and live audiences. His influence extends beyond traditional DJing, serving as a curator, connector, and personality that artists rely on to help introduce their music and brand to new audiences. Through touring, livestreaming, event hosting, and artist collaborations, DJ Maino Da Plug continues to build a platform that celebrates authenticity, underground creativity, and the culture pushing rap music forward.

GLO STREAMS HOSTED BY DJ MAINO

DJ Maino Da Plug is an underground music curator, tour DJ, and host heavily integrated within the rap and rage music scenes. He operates a growing channel as a livestream host on Twitch located at Chief Keef's store, The Glo Shop. He's creating spaces where independent or signed artists can share their music, laugh, and tell real stories on live. Maino is the key bridge for rising talent, notably serving as the official DJ for Bear1Boss and collaborating extensively with prominent underground artist UnoTheActivist.
